## Home Depot Celebrates 30th Anniversary with 90 Volunteer Projects in 30 Days

09/04/2009

Team Depot volunteers are blazing a trail of community service across the country during the month of September to celebrate The Home Depot's 30th anniversary. The first week is only partially finished, and it's been a great one! From YMCA Camp Duncan in Illinois to United Way in Mississippi to the Boys & Girls Club in Pinellas, Florida to Asheville Greenworks in North

Carolina. There has been a lot of elbow grease at work this week. For 30 years, Home Depot associates have worked alongside their neighbors to make their communities a better place. From the time The Home Depot's very first store opened in 1979, giving back to communities has been one of their core values. Through the efforts of The Home Depot Foundation and Team Depot volunteers, The Home Depot donates millions of dollars and thousands of hours each year to refurbish healthy homes, parks and playgrounds and plant community trees. This is part of a coordinated company strategy to build and support thriving, sustainable neighborhoods across the country. To honor its 30th anniversary and their legacy of community service, associates in each of our three U.S. divisions will complete 30 volunteer projects in 30 days. Just as they do throughout the year, associates will plant community gardens, weatherize low-income homes, clean up wetlands, refurbish schools and parks, and create outdoor classrooms, completing a total of 90 projects nationwide!
